C71

PROFILE

Centerm C71 is a specialized zero client for PCoIP solution, through which you can achieve unified management of high-end graphics workstation designed to render 3D graphic solutions with the PCOIP host card.
FEATURES

➤ **Specialized zero client for PCOIP solution**
Excellent performance in 3D graphics, which remedies the shortcomings of CITRIX and RDP solution in 3D applications.

➤ **High Performance**
Support 1920x1200 high resolution based on the high performance graphic engine and pixel processing core.

➤ **High Security**
All computing and storage hardware are protected in security center. Only pixels are transmitted to each C71 and all data are still stored securely in data center.

➤ **Zero Maintenance**
No CPU, no operating system, no storage, fanless, no noise, without need to upgrade the firmware or virus database frequently.

➤ **Low TCO solution**
Affordable price, lower power consumption which guarantee an economical solution.
